

ProSpray

The ProSpray cleaning and sanitation system automatically dilutes and dispenses concentrated cleaning products as a foam or spray. The spray system is easily and quickly converted into a foam system with the quick coupling foam wand.

- < Strong, long lasting and easy to clean rugged stainless steel enclosure
- < Smooth and ergonomic surface, with no sharp edges
- < Connection direct to the water source, no electric power or compressed air needed
- < Space saving
- < Quick and easy installation: no special tools required

The chemical feed rate is set by metering tips pressed into the barb on the side of the ProSpray.

- < Brass fittings for hot water resistance, polypropylene injectors for chemical resistance, rugged stainless steel casing for secure mounting and durability.
- < Will dispense 1 or 2 chemical products or a clear water rinse.
- < These features make the ProSpray suitable for cleaning throughout the food processing, dairy, transportation, industrial and agricultural industries.
- < It can be used: in supermarket meat rooms, seafood shops, butcher shops, automotive care areas, shower rooms; in short: anywhere spray/foam cleaning or sanitation is needed.
- < Available accessories: Wire rack for chemical containers and Ultra lean Tip

For all proportioning applications, SEKO provides the following

- < Possibility to dose 2 products individually or simultaneously (2 product model)
- < Single or multiple chemical use
- < 3.5 GPM Flow rate
- < 15 different mixing ratios can be easily chosen, making the dosing accurate and effective
- < Ball valve operation, no need to hold or lock a button
- < Fill tube designed to minimize excess foam

Features

- < No Lock-Tite threaded connections
- < Easy and Fast maintenance with SEKO's innovative "quick connect" manifold
- < Non Return valve and metering tips are easily accessible
